All decisions of the Producer including regarding the interpretation of rules, eligibility, prices, game play, order contestants participate etc. will be final and binding on all participants without appeal.

Venue and Producer are not responsible for lost, late, mutilated, or illegible tickets nor for electronic transmission errors or delays resulting in omission, interruption, deletion, defect, delay in operations or transmission, theft or destruction or unauthorized access to or alterations of entry materials, or for technical, hardware, software, or telephone failures of any kind, lost or unavailable connections, fraud, incomplete, garbled, or delayed computer transmissions, whether caused by Venue, Producer, users, or by any of the equipment or programming associated with or utilized in the promotion or by any technical or human error which may occur in the processing of submissions which may limit, restrict, or prevent an Eligible Contestant’s ability to participate in the promotion.

10. If for any reason the Show is not capable of running as planned, including infection by computer virus, bugs, tampering, unauthorized intervention, fraud, technical failures, or any other causes within or beyond the control of Venue or Producer which corrupt or affect the administration, security, fairness, integrity, or proper conduct of this promotion, Venue and Producer reserve the right at their sole discretion to cancel, terminate, modify or suspend the promotion.

11. Any attempt by any person to deliberately damage any program or to undermine the legitimate operation of this promotion may be a violation of criminal and civil laws and should
such an attempt be made, Venue and Producer reserve the right to seek damages from any such person to the fullest extent of the law.

14. Attendees shall not be allowed to take pictures and/or videos while in the theater space. Producer and Venue reserve the right to eject individuals found violating this policy from the theater.

Attending the Show:

15. Each person who enters theatre to attend Show must have a valid ticket. Individuals selected to compete as contestants in the Show who have not purchased a ticket shall be allowed to enter the theatre.

16. Ticket holders must register separately and in person to be possibly selected as an Eligible Contestant. For the avoidance of doubt, purchase of a ticket does not constitute registration into the contestant pool and/or guarantee that ticket holder will be selected to play as a contestant.

17. Tickets are non-transferable and non-replaceable. Venue and Producer are not responsible for lost, forgotten or stolen tickets.

18. Venue and Producer reserve the right to distribute additional tickets via advertising, direct mail or other promotional means.

Contestant Selection:

19. Each Eligible Contestant must register in person with Producer for a chance to participate as a contestant. For all shows, individuals must visit the registration stations located at the Venue prior to entering the theatre space. The registration windows are as follows:

**REGISTRATION WINDOWS**

Registration Opens: 4:30pm EST
Registration Closes: 7:30pm EST
Drawing Occurs: 7:35pm EST

20. An admission ticket is not required to register. Individuals may only register once for each Show.

21. During the open contestant registration window, each Eligible Contestant who would like the opportunity to be selected to play will provide their full name and month/date of birth to Producer. Producer shall provide either registration cards and pencils or means of electronic registration via tablet computer. Guests shall either drop the cards into designated bins or have their information entered into the database, and Producer shall collect the registrations to conduct one (1) random drawing.

22. Selection process shall be random (“Random Selection Process”), and Producer reserves the right to modify the Random Selection Process at its discretion. When registration is completed, all completed registrations (regardless of ticket purchase) will be eligible for selection. In the event tablets are used, names shall be randomly selected from the database; in the event registration cards are used, all cards shall be pooled together and individual cards shall be selected.

23. Regardless of method of registration, Producer or Producer’s designee will then draw sixty (60) names at random. Not all sixty (60) selected names may be called to play. Players who are selected to participate in a One Bid will be ineligible to play subsequent One Bids. Players who spin the Big Wheel will be ineligible to play One Bids. All players are, however, eligible to participate in the Showcase Round. This rule does not apply to designated
players (i.e., individuals designated by a selected Eligible Contestant to play on their behalf due to illness, infirmity or other physical inability to play).

24. When the name on the card is announced, the person named must immediately make it known that they are present. If, after thirty (30) seconds, the Producer(s) are unable to readily identify the person whose name was called as being present in the auditorium, the Eligible Contestant will be deemed absent and another Eligible Contestant will be selected.

25. In the event that an Eligible Contestant is chosen by having his/her name randomly drawn, and does not wish to play the game, s/he may forfeit their participation in the Show, and Producer shall randomly select another Eligible Contestant.

26. In the event that an Eligible Contestant is unable to play due to physical injury or incapacity, said Eligible Contestant may designate a proxy player to play on his/her behalf, provided such designated proxy player also meets the eligibility criteria set forth herein. All prizes won by the designee are the property of the original person whose name was selected.

Awarding of Prizing

27. Awarding of prizing is contingent on the following:
   a. Confirmation that contestant was an Eligible Contestant by verifying age, residency, and that the contestant was not deemed “ineligible” by virtue of past participation in the event or under any terms as set out in Clause 6 above. In the event that an ineligible person participates in the event and is potentially eligible for prizing, this person will be disqualified from winning the prize and the prize will be forfeited and will not be played for again.
   b. In order to be confirmed as the winner of any prize, Eligible Contestants must also complete and sign a standard release form, including a publicity release (where permitted by law), confirming compliance with these promotion rules, acceptance of the prize as awarded and indemnifying and releasing FremantleMedia North America, Inc., Good Games Live, Inc., The Pullo Center and their respective parent companies, affiliates, subsidiaries, agencies, agents, respective directors, officers, employees, representatives, sponsors, successors and assigns (“Released Parties”) from any liability for any loss, harm, damages, claims, costs, causes of action or injury whatsoever including, but not limited to, personal injury, accident or death, property damage, disappointment or inconvenience arising from any act, omission or negligence whatsoever relating to this promotion as a result of participation in the event and/or the receipt, ownership, possession, use or misuse of any prize.

Total number of Consolation Prizes awarded in any given Show varies by number of Eligible Contestants that do not win their game, but a total of nineteen (19) Consolation Prizes are potentially available to be won.

Pricing + Prizes

All prizes shall be in US dollars.

32. Prices used for game play throughout the Show are prices obtained from Amazon, Overstock, Best Buy, manufacturers, authorized dealers or suppliers, and will be based on US pricing for items. Prices for grocery items are obtained from the Producers of The Price Is Right television show, and are in US dollars. Prices for publicly-traded stock are based on the opening or current price of the stock on the morning of the day of the Show, and are in US dollars. If the stock market is closed day of Show, the price used is the current price on record.

33. Prices from Amazon are defined by Amazon as follows: “Except where noted otherwise, the List Price displayed for products on our website represents the full retail price listed on the product itself, suggested by the manufacturer or supplier, or estimated in accordance with standard industry practice. The List Price is a comparative price estimate and may or may not represent the prevailing price in every area on any particular day. For certain items that are offered as a set, the List Price may represent ‘open-stock’ prices, which means the aggregate of the manufacturer’s estimated or suggested retail price for each of the items included in the set. Where an item is offered for sale by one of our merchants, the List Price may be provided by the merchant.”

34. Prices from Overstock, often referred to as “compare at” prices, are defined by Overstock as follows: “The term ‘Compare at’ means the price at which, in the reasonable judgment of our experienced buyers, manufacturers or suppliers, the item may be sold on an everyday basis. Other vendors sometimes refer to this as the ‘retail price’ exclusive of special promotions or sale prices, at which the item might be offered at retail stores and at customary retail mark-up. In many instances, though not all, the ‘Compare at’ price reflects a price suggested by the manufacturer or supplier of these goods, without reference to actual retail sales and may amount to an estimation of a retail offer price in accordance with standard industry practices. It may also include a reasonable average estimated shipping cost, if ordinary shipping costs have been discounted or eliminated. We make no representation that the products have been sold or offered at the ‘Compare at’ price, and the price may or may not reflect the average or prevailing market price in any area on any particular day. For some items listed as a set, the ‘Compare at’ price may be an aggregate of the suggested or estimated prices for all items included in the set. Actual retail sales in your area may substantially differ from the ‘Compare at’ price. Moreover, the nature of internet sales on a national or international basis, and the fact that we deal in overstocks, closeouts, end-of-season, and unique items that may be sold only on Overstock.com, precludes our ability to know whether our products are sold at the ‘Compare at’ price at any particular location or time by other vendors. You may choose to use the ‘Compare at’ price as an approximate guide to what you would or could pay for these items in other locations, at other times, or under other conditions, including full retail price.”

35. Prices for Best Buy items are prices published by Best Buy or obtained from Best Buy.

36. Prices for trips are updated weekly and are currently based on current market values for departure on May 28, 2013 and are in US dollars.

37. Prices for automobiles and options are MSRP prices published or obtained from authorized dealers or from the manufacturer and are in US dollars. For bidding purposes, the MSRP of the automobile is based upon information read by the announcer during the Show, and not by the demonstration vehicle used on stage or appearing on the screens. Options
appearing on the car on stage are only included in the MSRP if the announcer reads those options during the Show.

38. All cash prizes will be paid in the form of cash vouchers redeemable through the Venue.
39. All non-cash prizes will be awarded with a prize redemption form, which will be completed following the performance.

One Bid Process:
40. The One Bid process is used to determine which one (1) of the four (4) contestants on contestants’ row will have the chance to participate in the pricing games described below.
41. A prize is described by the Show announcer and displayed onstage. The four (4) contestants on contestants’ row bid on the price of the prize. No two contestants may bid the exact same price on the same item.
42. The contestant who bids closest to the retail price of the prize (without exceeding the price of the prize) will win that prize and will also come onstage to participate in the game process.
43. The three (3) remaining contestants return to their seats with a Consolation Prize.
44. Should a contestant bid the exact retail price of the item, s/he will receive a $100.00 cash bonus. Any cash paid immediately on stage to the contestant is for display purposes only, to be replaced by a cash voucher after the Show.
45. In the event that all of the contestants have overbid, a buzzer will sound. The host will then ask each of the contestants to make another bid lower than the lowest of the previous bids. The contestants will place their second bids in the order of the original bids. Play continues in this manner until there is at least one contestant who has NOT overbid. If the price of the One Bid is accidentally or inadvertently revealed before the contestants can place new bids, the contestant whose bid was closest to the price of the One Bid item without exceeding the price of the item will win the item and play the pricing game on stage.
46. Prior to playing a pricing game, if the contestant on stage is found to be ineligible, the contestant from the remaining three One Bid players whose bid was next closest to the price of the One Bid item, without exceeding the price of the item, will win the item and play the pricing game on stage. If all three (3) remaining contestants have overbid, the contestant whose bid was closest to the price of the One Bid will win the item and play the pricing game on stage.
47. In the event of an error in a One Bid, the stage game prize that would have been played for by the contestant that should have won is awarded to that contestant.

Game Process:
3. For the game process, there are eight (8) games available to be played. The games played during each Show will follow the following schedule:
   a. The winner of One Bid #1 will play Punch A Bunch
   b. The winner of One Bid #2 will play Any Number
   c. The winner of One Bid #3 will play Cliffhangers
   d. The Big Wheel #1. Individuals selected to spin the Big Wheel may not have participated in the One Bid Process and/or any pricing games.
   e. The winner of One Bid #4 will play Hole in One
   f. The winner of One Bid #5 will play The Plinko™ game
   g. The Big Wheel #2. All Eligible Contestants are eligible to participate in the Big Wheel #2, whether or not they have participated in the One Bid process, any pricing games or the Big Wheel #1.
   h. The winner of The Big Wheel #2 will play Ten Chances – Showcase Edition

Punch a Bunch Game Process:
The contestant playing Punch A Bunch may win up to $2,500.
   • The game board is a punchboard with 50 paper-covered holes, each containing a card with a dollar value which is one of the following: $50, $100, $200, $300, $500, $750, $1,000, $1,500, or $2,500. The producers reserve the right to alter the dollar values on the cards.
   • The contestant is shown four grocery items, each tagged with an incorrect price.
The announcer describes the first item and the contestant states whether the correct price for the item is higher or lower than the price displayed. If the contestant is correct, s/he earns one punch at the board and makes the punch wherever s/he chooses. The card inside the punched hole remains inside the hole and is not revealed. If the contestant is incorrect, no hole is punched. The announcer then describes the second item and the contestant states whether the correct price for the item is higher or lower than the price displayed. If the contestant is correct, s/he earns one punch at the board, as described above. This continues one item at a time, until the prices of all four items have been revealed and punches have been made for each correct answer.

The card in the first hole punched is removed and shown to the contestant. The contestant then decides whether to keep the cash amount shown on the card and end the game or to give back the card and continue. If the contestant elects to keep the amount shown on the card, the game is over. If the contestant chooses to continue, s/he returns the card to the host. The amount on that card is thereby forfeited. Then the card in the second hole punched is revealed and the contestant again chooses whether to quit and keep the amount on the card that has just been revealed, or to return the card and continue playing. This continues until the contestant either accepts the cash amount shown on a card or has no more holes to look in. If there are no remaining punched holes, the contestant wins the amount of money shown on the card found in the final hole.

If one of the holes punched does not contain a card, the game is stopped and the cards are reshuffled and reset. The game then continues as described above.

Any Number Game Process:
- The game board contains ten (10) spaces representing four (4) digits for Prize #1, three (3) digits for Prize #2, and three (3) digits for the Piggy Bank. Only the Piggy Bank amount has a decimal point.
- The contestant chooses a digit 0 through 9. Each digit appears on the board only once. The digit the contestant has chosen is then lighted up, revealing its location on the game board. The contestant then chooses another digit and its location on the game board is revealed. The contestant continues calling out digits, one at a time. If all of the digits in the Piggy Bank are filled in, the game is over and the contestant wins the amount in the Piggy Bank. If all of the digits in Prize #1 (the 4-digit prize) are filled in, the game is over, and the contestant wins Prize #1. If all the digits in Prize #2 (the 3-digit prize) are filled in, the contestant wins that prize and the game is over.
- If a total equipment failure occurs which prevents the contestant from being able to play or to complete playing the game, the contestant is awarded Prize #1 and Prize #2.

Cliff Hangers Game Process:
- The contestant comes on stage to play Cliff Hangers for a prize package.
- The game is played on a graphic representation of a mountain which ascends to an abrupt cliff. At the base of the mountain stands a mountain climber whose pickaxe marks his position on the mountain. The mountain is divided into twenty-five (25) steps from the base to the edge of the cliff. The contestant wins the prize package if the mountain climber does not move more than twenty-five (25) steps, and remains on the mountain.
- Three (3) small items are displayed onstage and described by the announcer.
- The contestant bids on the price of the first item presented. If the contestant correctly bids the price, the mountain climber does not move. If the contestant does not bid the exact price of the item the mountain climber must ascend the mountain. The mountain climber ascends one (1) step along the mountain for every dollar the contestant’s bid differs from the price of the item. If the mountain climber falls off the mountain, the game is over and the contestant does not win the prize package.
- The contestant bids on the price of the second item presented. If the contestant correctly bids the price, the mountain climber does not move from its current position. If the contestant does not bid the exact price of the item the mountain climber must ascend the mountain. The
mountain climber ascends one (1) step along the mountain from its current position for every dollar the contestant’s bid differs from the price of the item. If the mountain climber falls off the mountain, the game is over and the contestant does not win the prize package.

- The contestant bids on the price of the third item presented. If the contestant correctly bids the price, the mountain climber does not move from its current position. If the contestant does not bid the exact price of the item the mountain climber must ascend the mountain. The mountain climber ascends one (1) step along the mountain from its current position for every dollar the contestant's bid differs from the price of the item. If the mountain climber falls off the mountain, the game is over and the contestant does not win the prize package. If the mountain climber does not fall off the mountain, the contestant wins the prize package.
- If an error that would have changed the final outcome of the game is discovered following the conclusion of the game, the contestant is awarded the prize package.

The Big Wheel Game Process:

- From among the pool of Eligible Contestants who were not selected to participate in the One Bid Process (and therefore did not have the opportunity to play a pricing game), Producer will select three (3) Eligible Contestants to spin the Big Wheel. If any of the three (3) contestants selected is not present in the showroom when her/his name is called or is in the showroom but doesn’t make her/his presence known when her/his name is called, s/he forfeits the opportunity to play the Big Wheel and another contestant will be called.
- The Big Wheel is a wheel with twenty (20) numbered spaces. The numbering system begins at 5 cents ($.05) and increases by 5-cent increments through one dollar ($1.00).
- The contestant who gets closest to one dollar ($1.00) without exceeding one dollar ($1.00), using one (1) spin or a combination of two (2) spins, wins a prize.
- The contestants spin the wheel in the order in which they were selected.
- Each contestant must spin the wheel one (1) full revolution. If a contestant does not spin the wheel one (1) full revolution, that spin is invalid and the contestant must spin again. If the contestant still cannot spin the wheel one (1) full revolution, the host may assist the contestant with his/her spin.
- Before the first contestant spins the Big Wheel, the wheel is set to the one dollar ($1.00) space.
- Each contestant spins the wheel. The amount that the wheel lands on is the contestant’s score for the first spin. Once the wheel has stopped for three (3) seconds, the spin is considered final, even if the wheel should subsequently move to an adjacent space. After his/her first spin, the contestant must decide if s/he would like to spin the wheel one (1) more spin. If the contestant decides not to spin the wheel again, his/her final score is the score from his/her first spin. If the contestant decides to spin the wheel again, s/he spins the wheel and the amount that the wheel lands on is the contestant’s score for the second spin. The scores from the first spin and second spin are added together to be the contestant's final score. If contestant needs assistance with his/her 2nd spin, host may assist the contestant OR if Big Wheel does not make a full revolution during the 2nd spin, contestant must spin again.).
- The contestant whose final score is closest to one dollar ($1.00) without exceeding one dollar ($1.00) is the winner of the Big Wheel game and wins the two hundred and fifty dollar ($250.00) cash prize. If the contestant’s final score is over one dollar ($1.00) the contestant no longer participates in the Big Wheel game.
- If any contestant spins exactly one dollar ($1.00) in one (1) or a combination of two (2) spins, s/he wins one hundred dollars ($100.00) and gets a bonus spin. For the bonus spin, the wheel is reset to the 5-cent ($.05) space. The contestant spins the wheel one (1) time. If the contestant does not spin the wheel one (1) full revolution the spin is invalid and the contestant does not receive an additional bonus spin. If the wheel lands on the 5-cent or 15-cent ($.05 or $.15) sections, the contestant wins an additional five hundred dollars ($500.00).
If the wheel lands on the one dollar ($1.00) space, the contestant wins an additional one thousand dollars ($1,000.00).

- In the event that one or more contestants have the same final score, a spin-off is held. Each of the contestants with the highest final scores is allowed one (1) additional spin of the wheel. Spinning order remains the same between the two contestants. Whoever achieves the highest score on the spin-off is the winner of the Big Wheel game. If a contestant participating in the spin-off lands on the one dollar ($1.00) spot during the spin-off, s/he will win one hundred dollars ($100.00) and will earn a bonus spin. For the spin-off bonus spin, the wheel is reset to the 5-cent ($0.05) space. The contestant spins the wheel one (1) time. If the contestant does not spin the wheel one (1) full revolution the spin is invalid and the contestant does not receive an additional bonus spin. If the wheel lands on either the 5-cent or 15-cent ($0.05 or $0.15) sections, the contestant wins an additional five hundred dollars ($500.00). If the wheel lands on the one dollar ($1.00) space, the contestant wins an additional one thousand dollars ($1,000.00).

- In the event that one or more contestants have the same final score and that final score is one dollar ($1.00), a bonus spin-off occurs. For the bonus spin-off, each of the participating contestants is allowed one (1) additional spin of the wheel. Spinning order remains the same between the two contestants. Prior to each bonus spin-off, the wheel is reset to the five-cent ($0.05) space. If a contestant spins and the wheel lands on the five-cent ($0.05) or fifteen-cent ($0.15) space, the contestant wins an additional five hundred dollars ($500.00). If a contestant spins and the wheel lands on the one dollar ($1.00) space, the contestant wins an additional one thousand dollars ($1000.00). If a contestant does not spin the wheel one (1) full revolution for the bonus spin-off, s/he must spin again. However, that spin is no longer considered a bonus spin, and the contestant would not be eligible for the cash bonuses described above. The winning contestant in the spin-off wins the $250 prize.

- In the case of the Wheel malfunctioning in a way in which the Producers determine that equitable play is unable to continue, players who are still competing will each receive $250. In case a malfunction of this nature should occur during a bonus spin, the contestant(s) will receive the top prize of $1,000.

- Any cash paid immediately on stage to the contestant is for display purposes only, to be replaced by a cash voucher after the Show. Non-winners will receive a Consolation Prize.

**Hole-In-One Game Process:**

- The contestant comes on stage to play Hole-In-One for a prize package. If the contestant puts a golf ball into the designated hole, s/he wins the prize package.
- A grass-like mat is set up on the floor like a putting green with a hole at one end. The mat is marked with lines at various intervals.
- Six (6) grocery items are shown on stage and described by the announcer.
- The contestant must place the six (6) items in ascending order according to price. The contestant chooses what s/he believes to be the lowest-priced item for the first line, farthest away from the hole on the putting green. The contestant chooses what s/he believes to be the second-lowest priced item for the second line, and so on, until all six (6) items have been placed along the lines of the putting green.
- After each of the items has been placed, the host reveals the price of the first item, on the first line, and then he reveals the price of the item placed on the second line.
- If the price of the item on the second line is lower than the price of the item on the first line, the contestant will attempt to putt a golf ball into the hole on the putting green from the first line.
- If the price of the item on the second line is higher than the price of the item on the first line, the host then reveals the price of the item on the third line.
- If the price of the item on the third line is lower than the price of the item on the second line, the contestant will attempt to putt a golf ball into the hole on the putting green from the second line.
• If the price of the item on the third line is higher than the price of the item on the second line, the host then reveals the price of the item on the fourth line.
• If the price of the item on the fourth line is lower than the price of the item on the third line, the contestant will attempt to putt a golf ball into the hole on the putting green from the third line.
• If the price of the item on the fourth line is higher than the price of the item on the third line, the host then reveals the price of the item on the fifth line.
• If the price of the item on the fifth line is lower than the price of the item on the fourth line, the contestant will attempt to putt a golf ball into the hole on the putting green from the fifth line.
• If the price of the item on the fifth line is higher than the price of the item on the fourth line, the host moves a golf ball up to the sixth line. The contestant will attempt to putt a golf ball into the hole on the putting green from the sixth line.
• The Producers reserve the right to give the contestant an additional attempt to putt the golf ball into the hole. The second-chance putt will take place from whichever line the contestant putted from on his/her first putt.
• If any errors that would change the outcome of the game are made by the Producers or Show staff, the contestant is awarded the prize package.
• If a contestant is infirm or disabled, the Producer has the right to change the line being putted from to a line closer to the hole. If an infirm or disabled contestant is unable to putt or would prefer not to putt for her/himself, s/he may elect to have a friend or family member from the audience putt from the line earned during the pricing portion of the game. If the contestant doesn’t know anyone in the audience, s/he may choose a volunteer from the audience to putt from the line earned during the pricing portion of the game. All prizes won are awarded to the original contestant regardless of who puts.

The Plinko™ Game Process:
• The Plinko™ game is played on a tall rod-studded surface that is almost upright and it is played with discs that are dropped one at a time from a position above the multi-rodded surface. Each disc falls, by gravity, and bounces off the rods in its path until it reaches the bottom and drops into one of the nine receptacles. The nine receptacles are worth dollar values ranging from $0 up to $500, i.e. $50, $100, $250, $0, $500, $0, $250, $100, $50.
• The contestant is awarded one(1) disc upon starting the game, and then can win up to four (4) more in a pricing game as follows:
  o There are four (4) small items with their prices in two (2) digits apiece. One (1) of the two (2) digits is the actual true number, the other digit is a false number. The contestant must select the true digit. If s/he is right, a disc is won. If s/he is wrong, then the true digit is revealed and that opportunity is lost. (e.g., A rice cooker valued at $50 is shown with these two digits: 8 0. The second digit is the correct digit and selecting the zero (0) wins the player another disc. The first digit is false and selecting the eight (8) loses that opportunity to get that disc.)
• Contestants do NOT win any of the items that they price in this game.
• In the event of graphics being incorrectly loaded in the game, if it would change the outcome of game, the contestant is awarded the disc they would have won for that prize.
• If a chip gets stuck on the peg, the host may use a The Plinko™ game stick to free the chip. However, this nullifies the outcome of that chip. That chip that got stuck is returned to the contestant to be dropped again.

The Big Wheel #2 Game Process:
Producer shall draw the names of three (3) Eligible Contestants, regardless of whether such individuals have participated in the One Bid or The Big Wheel #1 process, to play The Big Wheel #2, competing for a chance to play "Ten Chances – Showcase Edition".
• Big Wheel #2 is played identically to The Big Wheel #1, with the only change being that the prize for the winner of The Big Wheel #2 is the opportunity to play “Ten Chances – Showcase Edition”

**Ten Chances - Showcase Edition Game Process:**

• The winner of The Big Wheel #2 will go on to play “Ten Chances”.

• Contestant is shown four (4) prizes (Prize #1, Prize #2, Prize #3, Prize #4)
• Prizes are then played for one at a time, in the order in which they were shown.
• Contestant has 10 chances to accumulate prizes, starting with Prize #1.
• Contestant is shown a group of numbers that make up the price of the prize being played for.
• There may be additional numbers in the group of numbers shown that are not part of the prize being played for.
• Contestant is told how many digits there are in the price of the prize being played for.

• Using the numbers shown, contestant guesses the price of the prize.
• If correct, contestant wins the prize and moves on to attempt to win the next prize.
• If incorrect, contestant must guess again the price of the prize at hand.
• Each guess constitutes a “Chance”.
• Game continues until 10 chances (guesses) have been taken, or all four prizes have been won.
